# Alejandro Ramírez

## Senior .NET / Azure Solutions Developer

alejandro.ramirez@example.com | 555-200-0013

Monterrey, Mexico | Remote | English: Advanced (C1)

### PROFESSIONAL PROFILE

Enterprise .NET specialist with infrastructure awareness and cloud deployment experience. Experienced with Azure and containers, but AWS administration and infrastructure-as-code are not primary strengths.

### TECHNICAL SKILLS

- C#, ASP.NET Core, .NET 8, Entity Framework Core
- SQL Server, Azure SQL, REST API design
- Azure App Service, Azure DevOps Pipelines, Azure Monitor
- Docker fundamentals, basic Kubernetes deployment
- Microservices architecture, xUnit, technical mentoring

### PROFESSIONAL EXPERIENCE

**Principal .NET Developer | Arcadia Systems (2020–2026)**

Designed backend services and Azure delivery pipelines for enterprise clients; managed Azure App Services and SQL migrations. Partnered with infrastructure teams for containers and monitoring.

**Software Engineer | Sistemas Norte (2015–2020)**

Built ASP.NET business applications, SQL stored procedures and reporting integrations.

### EDUCATION & ADDITIONAL INFORMATION

B.S. Information Technology | Instituto Tecnológico de Monterrey (2015)

Experience: 11 years | Limited AWS, Terraform and Linux infrastructure ownership.
