Carlos Hernández

Senior PHP / Laravel Engineer

carlos.hernandez@example.com | 555-200-0011

Mexico City, Mexico | Remote | English: Advanced (C1)

PROFESSIONAL PROFILE

Backend engineer specializing in production Laravel platforms, database tuning and large-scale API development. Hands-on technical lead with strong automated testing and architecture practices.

TECHNICAL SKILLS

- PHP 8.2, Laravel 10/11, Eloquent ORM, Composer
- MySQL query optimization, Redis cache, queues, Horizon
- REST APIs, OpenAPI, authentication, OAuth2, JWT
- SOLID, design patterns, clean architecture, PHPUnit and Pest
- Docker, Linux, Git, GitHub Actions, CI/CD, Nginx

PROFESSIONAL EXPERIENCE

Senior Laravel Engineer | Nube Comercio (2021–2026)

Led migration of a monolithic PHP platform to modular Laravel services; reduced average API response times by 38% using query profiling, indexes and Redis caching. Implemented code reviews, PHPUnit coverage and automated deployments.

PHP Developer | Punto Digital (2017–2021)

Built order-processing APIs and administrative portals in PHP/Laravel and MySQL; designed queue workers, payment integrations and role-based access.

EDUCATION & ADDITIONAL INFORMATION

B.S. Computer Systems Engineering | Universidad Tecnológica (2016)

Experience: 9 years | Laravel certification coursework; mentored four developers.
