Fernando Vargas

Full Stack JavaScript Developer

fernando.vargas@example.com | 555-200-0019

Medellín, Colombia | Remote | English: Upper-intermediate (B2)

PROFESSIONAL PROFILE

Full stack JavaScript engineer with production Node.js applications and modern frontends. Strong API design and SQL/NoSQL experience; Angular is primary frontend framework, while React work is recent and limited.

TECHNICAL SKILLS

- Node.js, Express, JavaScript, TypeScript, REST APIs
- Angular 15+, RxJS, HTML5, SCSS, responsive design
- MongoDB, PostgreSQL, authentication with JWT
- React basics: hooks, functional components (side project)
- Docker, Jest, Git, GitHub Actions, Scrum

PROFESSIONAL EXPERIENCE

Full Stack Engineer | Portal360 (2022–2026)

Built Angular admin consoles and Node.js/Express APIs for CRM workflows; owned MongoDB schema changes, authentication, deployment pipelines and production fixes.

JavaScript Developer | Red Conecta (2020–2022)

Developed front-to-back features for customer portals and integrated third-party REST endpoints.

EDUCATION & ADDITIONAL INFORMATION

B.S. Software Development | Universidad de Antioquia (2020)

Experience: 6 years | React exposure is smaller than Angular; no professional Sencha Ext JS experience.
