Lucía Navarro

Data Engineer / Analytics Specialist

lucia.navarro@example.com | 555-200-0018

Lima, Peru | Remote | English: Upper-intermediate (B2)

PROFESSIONAL PROFILE

Data platform specialist who builds reliable batch pipelines and reporting models. Strong Python/SQL skills but little direct web frontend, PHP, DevOps operations or browser QA experience.

TECHNICAL SKILLS

- Python, SQL, Apache Spark, PySpark, pandas
- Apache Airflow, Azure Data Factory, Databricks
- Azure Data Lake, data modeling and ETL/ELT
- Power BI, data quality rules and monitoring
- PostgreSQL, Git, basic Docker for local development

PROFESSIONAL EXPERIENCE

Data Engineer | Atlas Insights (2021–2026)

Created Airflow and Spark pipelines processing customer events, built medallion-style lakehouse models, and automated data quality checks for dashboards.

BI Developer | Sigma Analytics (2019–2021)

Maintained SQL reporting datasets and Power BI analytics models; optimized nightly ETL jobs.

EDUCATION & ADDITIONAL INFORMATION

B.S. Computer Science | Universidad de Lima (2019)

Experience: 7 years | No professional Laravel, React, Ext JS, Selenium or AWS Kubernetes operations.
